Welcome word

Dear Colleagues,

On behalf of the Scientific Committee, we are delighted to invite you to the new edition of the **Transplant Fellows Course: Core curriculum**. The event will take place at the **Auditoire A, Hôpital des enfants, CHUV in Lausanne on Friday, May 8, 2026**.

This course is designed as an introduction to the field of solid organ transplantation, offering a comprehensive overview of fundamental knowledge and widely recognized practices within the transplant community. While the program highlights recent progress and evolving standards, it does not focus on experimental research that is still under development.

Specifically tailored for early-career professionals and young fellows in transplantation, this event is offered in a hybrid format combining an in-person experience at our Lausanne venue with online participation, ensuring broad accessibility and engagement.

Our goal is to foster an inspiring and dynamic environment where the next generation of transplant professionals can exchange ideas, connect with peers and mentors, share insights and explore forward-thinking developments shaping the future of transplantation.

In the name of the Scientific Committee, we are looking forward to welcoming you in Lausanne on this occasion.

With kind regards,

For the Scientific Committee,

A handwritten signature in black ink, appearing to read 'KOUTSOKERA', with a stylized flourish above it.

Dr Angela Koutsokera
